

# Learn How Plants Grow!

**“A garden is any place where someone is tending and growing things”**

—Jane Hirschi, *We Garden Together!*

*We Garden Together!* introduces gardening to 3-to-6-year-olds with planting and growing activities that can be done anywhere. Each activity—from Sorting Seeds to Going on a Worm Hunt to Growing a Sweet Potato Buddy—encourages kids to roll up their sleeves and learn about plants and how they grow. Step-by-step photos and on-the-page discovery prompts make it easy and inviting for kids everywhere to become plant lovers and nature explorers.

## At-A-Glance

- **Creative, hands-on garden projects specially designed for ages 3 to 6.** This garden activity book is specially designed to awaken kids’ curiosity and wonder about nature, plants, and how things grow, even if they don’t have access to a garden space.
- **Written by garden curriculum experts.** CitySprouts specializes in creating easy learning activities for children as young as preschool. Recognized for their commitment to promoting equity in science education and access to the natural world, CitySprouts collaborates with public schools and school gardens in the greater Boston area and consults with programs nationwide.
- **Sharpens STEM skills.** Hands-on discovery activities foster early science and nature learning for pre- and early readers. Photographic step-by-step instructions offer accessibility for pre-readers.

## ABOUT THE AUTHOR

**Jane Hirschi** is the founding director of CitySprouts, a nationally recognized program that provides early science and nature education in collaboration with 20 public schools in the greater Boston area. She is passionate about making sure that all children have opportunities for hands-on science education in the garden and the chance to get to know the natural surroundings in their own neighborhood. She lives in Cambridge, Massachusetts.

**CitySprouts** cultivates curiosity and wonder with hands-on science learning through urban gardens. For more than 20 years, CitySprouts has partnered closely with public elementary schools in the greater Boston area to provide opportunities for children to learn by exploring the natural world as part of their school journey. CitySprouts is committed to greater equity in science education and children’s access to nature no matter where they live.
